Michael Shearer
Chief Solution Officer

Hawk AI is joining forces with ACAMS on March 19 to host a not-to-be-missed webinar on the practicalities of using AI to combat money laundering and other financial crime. [Register now >>](#)

Insights from a Global Banking Expert: Using AI to Detect Financial Crime will feature a presentation from [Michael Shearer](#), Former Group Head of Compliance Product Management at HSBC and now Chief Solution Officer at Hawk AI.

In his presentation, Michael will share learnings from his own experience in implementing AI within the anti-financial crime operation of a global bank.

Attendees will hear about:

- Why AI is no longer optional for anti-money laundering
- What results you can expect from implementing AI in AML
- What pitfalls you should look out for when using AI

10-11am EDT

2-3pm GMT

Tuesday, March 19 2024

Shearer spent many years at HSBC, where his achievements include the creation of a multiple-award-winning analytics application, which integrated customer, transaction, risk and external data from over 50 countries to enable risk detection across multiple customer types. He also led the creation of an industry-first cloud-based machine learning platform for financial crime detection.

Prior to HSBC, Michael spent 20 years working in government intelligence and counter-terrorism.

He is also the author of a newly published book, [Hands-on Entity Resolution](#) , which is available now from Amazon and other book outlets.

[Register today](#)  to attend the webinar. Can't make it? Register and we'll send you the on-demand link.
